

Excel University

Scholarship Application

Step 1: Be sure you are eligible

You must be:

- Currently enrolled at an accredited two or four-year college or university in the United States
- Must be a declared accounting major or have an emphasis in accounting
- A legal resident of the United States or hold a valid student visa

Step 2: Provide basic information

Name _____

US Postal Address _____

Email Address _____ Telephone _____

College/University _____

Overall GPA _____ Accounting GPA _____

Major _____ Expected Graduation Date _____

Step 3: Gather additional documentation

Please provide the following additional items:

- Resume including work experience, extracurricular activities, and honors or awards
- Letter of recommendation from your accounting professor
- Provide accounting professor's contact email address for verification of enrollment
- Unofficial transcript of all college-level classes (if scholarship is won, official transcript required)
- One-page essay: "Interesting Ways I've Used Microsoft Excel"

Please note: this application will not be considered without this additional documentation.

Step 4: Sign and return

I promise the submitted information is true and complete and I meet all eligibility requirements. I give Excel University permission to use my name and essay on any and all marketing collateral. I wrote the essay, it is my unique and original work, and has not been previously published in writing or on the web.

Signature _____ Date _____

Email application and all additional documentation to: scholarship@excel-university.com

Good luck!
