EXCEL UNIVERSITY

Learn Excel.
Work Faster.

HOW OUR EXCEL TRAINING WILL HELP YOUR STAFF AND FIRM

OVERVIEW

Excel University will help your team learn Excel and work faster. Our program includes on-demand training plus optional live office hours for support and Q&A. Our program was developed by Jeff Lenning CPA, a Microsoft Certified Trainer and Microsoft Excel MVP.

RESULTS

Our training has helped students eliminate 100,000+ hours of tedious manual tasks, and we can help your staff as well.

- Bob Spradley's task used to take **4 hours**--now it takes **5 minutes**
- Melissa Clay's report took **6 hours**--now it takes **30 minutes**
- Cathy Smith's crunch time took **days**--now it takes **minutes**
- Lee Ann Webster **saved 3 hours** a month on one project
- Luis Vivas **saved hours** by learning to use a single function
- Bobby Krupp **saves 2 to 3 hours daily**
- Maia Pavlova was able to **cut hours and days** from monthly reports
- Marilyn Gwosdz was self-taught, but she learned faster ways in the **first two lessons**

STAFF BENEFITS

- Learn the process to consistently optimize workbooks for efficiency and accuracy
- Master the core skills of Excel and understand how they fit together
- Discover powerful Excel tools that help automate routine manual tasks

FIRM BENEFITS

- Increase capacity to take on new clients, customers, or projects
- Maintain current workload even when faced with staffing constraints
- Ensure consistency in Excel workbooks so any staff can update any workbook

LEARN FREE

- When your staff try to learn free through web search, they end up with a random collection of unrelated and conflicting tips and tricks
- Plus, web search takes too long. As Steve Jobs said: *"Time is our most precious resource"*
- We help your staff learn Excel in the most efficient and effective way possible
